Enhancements	2
Visible Ellipsis (...) Menu in UI	3
Compliance % Tooltip on Overview Dashboard	3
Bug Fixes	3
Fix 500 Error on /worker-pools/export-resource-compliance API	3

Enhancements

Visible Ellipsis (...) Menu in UI

The ellipsis (...) menu, which indicates where further actions are available, is now visible by default in the user interface across various sections, including Projects, Personnel, Invite Personnel, to enhance user clarity and reduce confusion.

Compliance % Tooltip on Overview Dashboard

The Compliance % column in the Overview > Resource Pools dashboard now includes a tooltip. The tooltip clarifies that the displayed percentage is an average across all assigned positions and directs users to view the specific compliance percentage for each position in the personnel profile.

Bug Fixes

Fix 500 Error on **/worker-pools/export-resource-compliance** API

Resolved an issue where a 500 Internal Server Error was returned when calling the **/worker-pools/export-resource-compliance** API endpoint with a valid resourcePoolUuid. The endpoint now processes the request successfully without error.
