Enhancements

Overview > Resource Pools: ≤90 Day Expiry Filter

We've added a new <90 day filter option to the Overview > Resource Pools dashboard. When viewing Personnel and Compliance views, you can now quickly surface certificates expiring within 90 days.

Digital Skills Passport: Desired Role Requirements

The web-version of the Digital Skills Passport now displays desired project role requirements alongside mandatory requirements, giving personnel a clearer picture of what certifications and training are valued for upcoming roles.

This improvement helps personnel understand not just the minimum compliance requirements for a project, but also the additional qualifications that may improve their suitability. For service providers, this can reduce back-and-forth during the mobilisation process by setting clearer expectations up front.
